

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Global Small & Mid-Cap SDG Horizons Equity Fund, a US Dollar denominated sub fund of the abrdn SICAV I, A Acc USD Shares (ISIN: LU0728928796). This fund is managed by abrdn Investments Luxembourg S.A.

OBJECTIVES AND INVESTMENT POLICY

Investment Objective

The Fund aims to achieve a combination of growth and income by investing in companies listed on global stock exchanges including Emerging Markets which in our view will make a positive contribution to society through their alignment with achieving the United Nation's Sustainable Development Goals ("SDGs").

The Fund aims to outperform the MSCI ACWI SMID-Cap Index (USD) benchmark (before charges).

Investment Policy

Portfolio Securities

- The Fund invests at least 90% in equities and equity related securities of companies listed globally.
- The Fund invests at least 70% in Small & Mid sized companies, defined as any stock smaller than that of the largest stock in the MSCI ACWI SMID-Cap Index.
- The Fund may also invest in larger companies listed globally.
- The Fund may invest up to 20% in Mainland China equity and equity-related securities through the Shanghai-Hong Kong and Shenzhen-Hong Kong Stock Connect programme.
- Investment in all equity and equity related securities will follow the abrdn "Global Small & Mid-Cap SDG Horizons Equity Investment Approach" (the "Investment Approach"), which is published at www.abrdn.com under "Fund Centre".
- Financial derivative instruments, money-market instruments and cash may not adhere to this approach.
- The Fund invests in companies with a minimum of 20% of their revenue, profit, capital or operating expenditure or research and development linked to the UN's SDGs. For companies classified as "Financials", alternative measures of materiality are used based on loans and customer base. The Fund will also invest up to 40% in SDG Enablers. These are companies considered integral to supply chains that enable progress towards the SDGs, but their impact is not currently reliably measurable.
- In addition, we apply a set of company exclusion related to normative screening, Norges Bank Investment Management, State Owned Enterprises, Weapons, Tobacco, Gambling, Alcohol, Thermal Coal, Oil & Gas, and Electricity Generation.
- The Investment Approach reduces the Fund's investment universe by a minimum of 20%.

Management Process

- The Fund is actively managed with a primary focus is on stock selection using the management team's quality, growth and momentum

approach.

- The Investment Approach identifies companies which are aligned to the UN's SDGs. These goals are designed to address the world's major long-term challenges. These include climate change, growing social inequality, and unsustainable production and consumption.

- Through the application of this approach, the Fund has an expected minimum of 85% in Sustainable Investments. It also targets a lower carbon intensity than the benchmark.

- Engagement with external company management teams is used to evaluate the ownership structures, governance and management quality of those companies in order to inform portfolio construction.

- The benchmark is used as a reference point for portfolio construction and as a basis for setting risk constraints, but does not include any sustainable criteria.

- In order to achieve its objective, the Fund will take positions whose weightings diverge from the benchmark and may invest in securities which are not included in the benchmark. The investments of the Fund may deviate significantly from the components of and their respective weightings in the benchmark.

- Due to the active and sustainable nature of the management process, the Fund's performance profile may deviate significantly from that of the benchmark.

Derivatives and Techniques

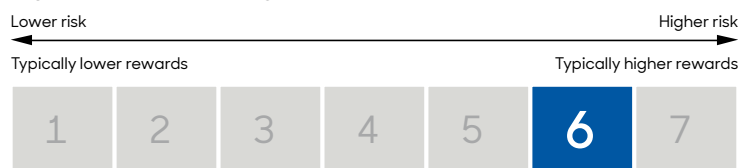

The Fund may utilise financial derivative instruments for hedging and/or investment purposes, or to manage foreign exchange risks. The use of derivatives for hedging and/or investment purposes is expected to be very limited, mainly in those cases where there are significant inflows into the Fund so that cash can be invested while the Fund's investments in equity and equity related securities is maintained.

Investors in the fund may buy and sell shares on any dealing day (as defined in the Prospectus).

If you invest in income shares, income from investments in the fund will be paid out to you. If you invest in accumulation shares, income will be added to the value of your shares.

Recommendation: the fund may not be appropriate for investors who plan to withdraw their money within five years. Investors should satisfy themselves that their attitude to risk aligns with the risk profile of this fund before investing.

RISK AND REWARD PROFILE

This indicator reflects the volatility of the fund's share price over the last five years which in turn reflects the volatility of the underlying assets in which the fund invests. Historical data may not be a reliable indication for the future.

The current rating is not guaranteed and may change if the volatility of the assets in which the fund invests changes. The lowest rating does not mean risk free.

The fund is rated as 6 because of the extent to which the following risk factors apply:

- The fund invests in equity and equity related securities. These are sensitive to variations in the stock markets which can be volatile and change substantially in short periods of time.
- The shares of small and mid-cap companies may be less liquid and more volatile than those of larger companies.
- The fund invests in emerging market equities and / or bonds. Investing in emerging markets involves a greater risk of loss than investing in more developed markets due to, among other factors, greater political, tax, economic, foreign exchange, liquidity and regulatory risks.
- The fund may invest in companies with Variable Interest Entity (VIE) structures in order to gain exposure to industries with foreign ownership restrictions. There is a risk that investments in these structures may be adversely affected by changes in the legal and regulatory framework.
- Investing in China A shares involves special considerations and risks, including greater price volatility, a less developed regulatory and legal

framework, exchange rate risk/controls, settlement, tax, quota, liquidity and regulatory risks.

- The use of derivatives carries the risk of reduced liquidity, substantial loss and increased volatility in adverse market conditions, such as a failure amongst market participants. The use of derivatives may result in the fund being leveraged (where market exposure and thus the potential for loss by the fund exceeds the amount it has invested) and in these market conditions the effect of leverage will be to magnify losses.

All investment involves risk. This fund offers no guarantee against loss or that the fund's objective will be attained.

The price of assets and the income from them may go down as well as up and cannot be guaranteed; an investor may receive back less than their original investment.

Inflation reduces the buying power of your investment and income.

The value of assets held in the fund may rise and fall as a result of exchange rate fluctuations.

The fund could lose money if an entity (counterparty) with which it does business becomes unwilling or unable to honour its obligations to the fund.

In extreme market conditions some securities may become hard to value or sell at a desired price. This could affect the fund's ability to meet redemptions in a timely manner.

The fund could lose money as the result of a failure or delay in operational processes and systems including but not limited to third party providers failing or going into administration.

Where the share class is described as "hedged", currency hedging techniques are used which will reduce, but not eliminate, exchange rate risk. In particular, the currency being hedged is not necessarily related to the currencies within the fund. Such techniques also give rise to additional risks and costs.

CHARGES

The charges you pay are used to pay the costs of running the fund including marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	5.00%
Exit charge	0.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.

Charges taken from the fund over a year

Ongoing charges	1.66%
-----------------	-------

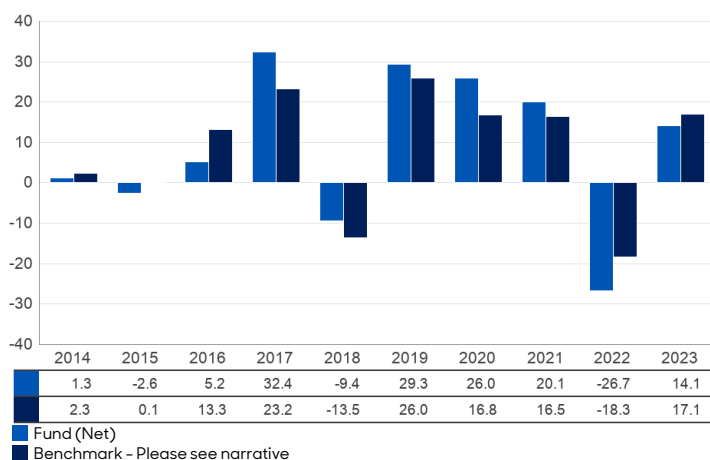

Charges taken from the fund under certain specific conditions

Performance fee	0.00%
-----------------	-------

PAST PERFORMANCE

Global Small & Mid-Cap SDG Horizons Equity Fund, A Acc USD Shares, 31 December 2023

% Returns

The entry and exit charges shown are maximum figures. In some cases you might pay less – you can find this out from your financial adviser. The Ongoing Charges figure is an estimate based on the last year's expenses and may vary from year to year. It excludes the costs of buying or selling assets for the Fund. An estimate is used in order to provide the figure that will most likely be charged. The ongoing charges figure is at 05/06/2023.

A switching charge may be applied in accordance with the Prospectus. For more information about charges please see Prospectus.

For more information about charges, please see the Prospectus which is available at www.abrdn.com.

Past performance is not a guide to future performance.

Performance is net of charges and does not take into account any entry, exit or switching charges but does take into account the ongoing charge, as shown in the Charges section.

Performance is calculated in USD.

The fund was launched in 2012. The share/unit class was launched in 2012.

Benchmark – MSCI AC World Small Mid Cap Index from 15/12/2023.

MSCI AC World Small Cap Index (USD) from 31/10/2019 to 14/12/2023.

MSCI World Small Cap Index (USD) from 22/08/2012 to 30/10/2019

On 15/12/2023 the funds objectives and/or investment policy changed.

The performance prior to this date was achieved under circumstances that no longer apply.
